

Verse

I don't know if my nature vs. nurture was done for me So long ago
That if you asked me to look inside I could not see what was
Foregone
Don't you know that when I yell it just means
I'm Comfortable with you
But if I could catch you falling sooner
I'd catch with all my might

Chorus

And I'd do it all
I'd climb through it all
I'd change, I would change
Change, I would change!
Change, I would change my...

Verse

But if I could turn these inevitabilities
I might move on
But if you change one thing, you change everything
A thin string Unravels

*Chorus**Bridge*

And so twisted I write poetry I never mean for you to see
And I'm tryin' so hard to keep shit together
But I'd really like to drive, Yeah I'd really like to drive
Around your door again if you would let me... In

Chorus

Reality if I could only see
It might have been me
Instead of circumstance

Outro

But if a scorpion can't stop his tail from swingin'
if a scorpion can't stop his tail from stingin'
What hope do I, I have?
