

Sunshine on my shoulders  
Makes me high  
Rain clouds are all over  
I feel alive

They say love is always blind  
It slowly disappears in time  
But when I'm with you  
Dark clouds start giving way

Don't need to be a rich man  
To help me in this world  
There's only one thing I need to get by

'cause I got sunshine...

They say only time will tell  
if I'm livin' underneath your spell  
but I'm hypnotized  
it's no surprise to me

I might be a borderline  
A dreamer only passing time  
But I'll only dream of passing time with you

'cause I got sunshine...

Sunshine on my shoulders  
Makes me high  
With you here, next to me  
I feel alive

I got sunshine...
